

Journal of week Kezmarok, Slovakia – mai 2022

Day 1

On my first day in Slovakia Kezmarok we had a few lessons about what we need to survive and what we want, but we don't is not necessary for us to survive it was nothing to hard and we had some fun It was a good day and we also had an activity where we can get to know each other. It was a good first day.

Erasmus-Journal day 1

I went to school in Kezmarok with my host named Šimon Briksi.

After school, we went to a water treatment plant, then went home to eat and went out with the rest of the Erasmus children.

Day 2

In the second day we had a trip to Tatra Mountains but first we got to a Museum where we find what what type of animals species are in Tatra mountains and also some traditional clothing from Slovakia

Then we did a activity in which we cleaned up the mountains as good as we can

And after it was time for fun because we got to Tatrás tower where is a very big slide it was very fun and a very good experience.

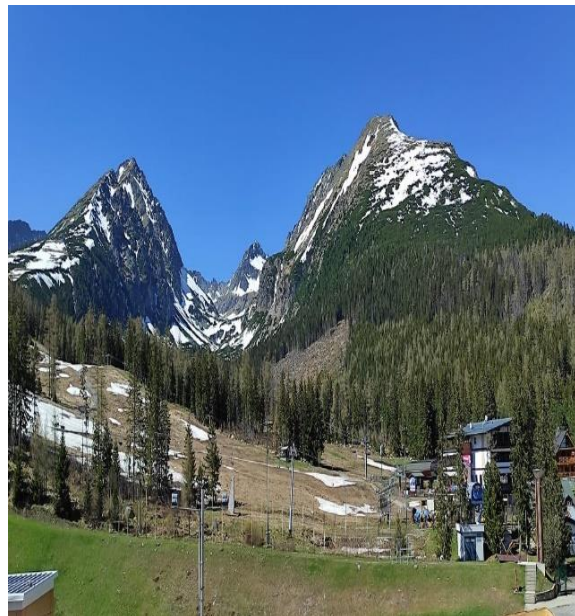

Day 3

In the third day we had some lessons about how what we can recycle and what is the best way to recycle.

After the lessons we had a treasure hunt and it was fun because in that way we can discover the city and in this way we got the chance to interact with everyone.

Day 2

We met at school, then went to the Tatra Mountains for some interesting activities with flora, fauna, recycling and planting trees. After these activities we visited the Tatra tower where we climbed to an altitude of 61 m and when descending the tower we had a very fun metal slide.

Day 3.

Activities at school, then a little treasure hunt that I honestly didn't like because it was written in German and I didn't understand anything at all, good luck with the students from Hungary who managed to translate the treasure hunt tasks.

Day 4

In the fourth day we went to a farm and in the same place is a chocolate factory.

At the factory we got some chocolate it was delicious.

And at the end of the day we went to bowling it was very fun.

And this was the last day sadly but I hope I can have this experience once again. (Robert S)

Day 4

I went to Nestville Farm and

Nestville Chocolate factory where I eat some really good chocolate!

After returning from Nestville, we attended the Youth Parliament with all the Erasmus students and after that we went to Bowling in Poprad

Where we had a great time with all the children and teachers.
